Message from the Institution

Mrs. Tanushree Mehrotra

Chairperson

At Sitapur Shiksha Sansthan, we remain committed to aligning education with the changing needs of the economy, industry, and technology. We have adopted a curriculum designed to address the diverse aspirations of today's youth and to prepare them for meaningful participation in the modern world. Our endeavour is to empower students through education, leadership, and values so that they may contribute responsibly to society and the profession.

Dr. (Ms.) Suman Mehrotra

Secretary

M.Sc., M.Ed., Ph.D., D.Litt.

Education is advancing rapidly and demands individuals who can innovate, adapt, and lead change. Through sustained effort and sound guidance, we strive to nurture human capital that can strengthen the nation. Guided by dedication and discipline, Sitapur Shiksha Sansthan has developed an academic environment supported by well-equipped laboratories and essential student amenities. We believe that the true purpose of education is to build character, cultivate discipline, and enrich the mind.

"Our emphasis is not only on academic preparation, but also on discipline, responsibility, leadership, and the development of ethically grounded healthcare professionals."

About the Institution

In the present era of economic growth and technological advancement, professional education plays a vital role. The pharmaceutical sector continues to create opportunities in hospitals, the government and private pharmaceutical industry, academia, marketing, and retail pharmacy.

The Institute of Pharmacy, Sitapur, was established in 2007 for the B.Pharm programme, affiliated to AKTU, Lucknow and approved by the Pharmacy Council of India. The D.Pharm programme was introduced in 2008 under the School of Pharmacy & Research, Sitapur, affiliated to BTE (UP) and approved by the Pharmacy Council of India. In 2024, both programmes were brought under the Institute of Pharmacy. The institution is dedicated to providing quality pharmacy education and to fostering the personality, competence, and professional confidence of budding pharmacists.

Vision

To emerge as a self-reliant centre of excellence in pharmaceutical education, research, and ethical healthcare practice, nurturing academically strong and socially responsible pharmacists for a healthier society.

Mission

- Provide quality education through student-centred teaching-learning processes supported by modern infrastructure.
- Advance the knowledge, skills, and professional attitude of faculty members for meaningful academic and research contributions.
- Equip students with sound pharmaceutical knowledge and practical competence to serve the healthcare sector and the pharmaceutical industry.
- Encourage independent thinking, contemporary skills, and the holistic development of young minds.
- Evolve into a recognised centre of academic and research excellence in pharmaceutical education and pharmacy practice.

Facilities & Laboratories

The campus provides laboratories, a museum, medicinal garden, seminar hall, computer lab, digital classroom, e-library, separate common rooms, a first-aid room, and reception facilities. The laboratories are designed to provide adequate space, light, and working ease for students across the major disciplines of pharmacy.

- Pharmaceutics Laboratory
- Pharmacognosy Laboratory
- Pharmaceutical Microbiology Laboratory
- Pharmaceutical Chemistry Laboratory
- Pharmaceutical Analysis Laboratory
- HAP Laboratory
- Machine Room
- Central Instrumentation Room
- Model Pharmacy

Learning Environment & Campus Amenities

Library

The Institute of Pharmacy Library supports academic study as well as general reading. It houses about 5,000 books, accommodates around 100 students, and subscribes to journals, periodicals, magazines, and newspapers in various subjects. Internet access is available for students and teachers.

Central Computer Lab

The fully air-conditioned Central Computer Lab helps students stay abreast of developments in information technology and strengthens their computer skills. The facility also includes a well-equipped language lab with microphone and web camera support.

Canteen

The canteen provides a variety of food items at reasonable rates in a spacious, clean, and hygienic environment. The surrounding lawns contribute to a welcoming campus ambience.

Hostel

The hostel is an integral part of campus life, fostering discipline, comfort, and commitment to academic and co-curricular development.

Programme Educational Objectives & Admissions

Knowledge & Understanding

Students develop a sound understanding of pharmaceutical sciences, medication use, safety, and effectiveness.

Skill Development

Students build practical and professional skills in quality pharmaceuticals, drug information, and therapy-related practice within legal and ethical norms.

Professional Attitude

Students cultivate updated knowledge, technological awareness, continuous learning, and participation in national health programmes.

B.Pharm

The candidate must have passed **10+2 (Intermediate) examination** or its equivalent from a recognized board. The candidate must have studied **Physics and Chemistry as compulsory subjects**, along with **Mathematics / Biology / Biotechnology** as one of the subjects. Admission is granted based on performance in **CUET-UG** followed by **UPTAC counselling**, as prescribed by the university. Candidates must satisfy all other conditions and guidelines issued by the university and regulatory authorities from time to time.

D.Pharm

The candidate must have passed **10+2 (Intermediate) examination** or its equivalent from a recognized board. The candidate must have studied **Physics and Chemistry as compulsory subjects**, along with **Biology / Mathematics** as one of the subjects. Admission is granted through **JEECUP (Joint Entrance Examination Council, Uttar Pradesh)** or as per the admission guidelines issued by **BTE/State Government** from time to time. The candidate must fulfill all other eligibility requirements as prescribed by the **Board of Technical Education, Uttar Pradesh and Pharmacy Council of India (PCI)**.

Programme Delivery

The institute promotes experiential and community-oriented learning through health awareness camps on tuberculosis, obesity, HIV/AIDS, diabetes, and related themes. Teaching-learning practices include problem-based learning (PBL) and project-based learning for effective understanding and application.
